Life Technology Environment Quality Made in Japan

SANKO is developing a variety of environmental products with unique ideas.

Production process

and

Made of about 56.4 million 500 ml PET bottles (about 1,400 tons)

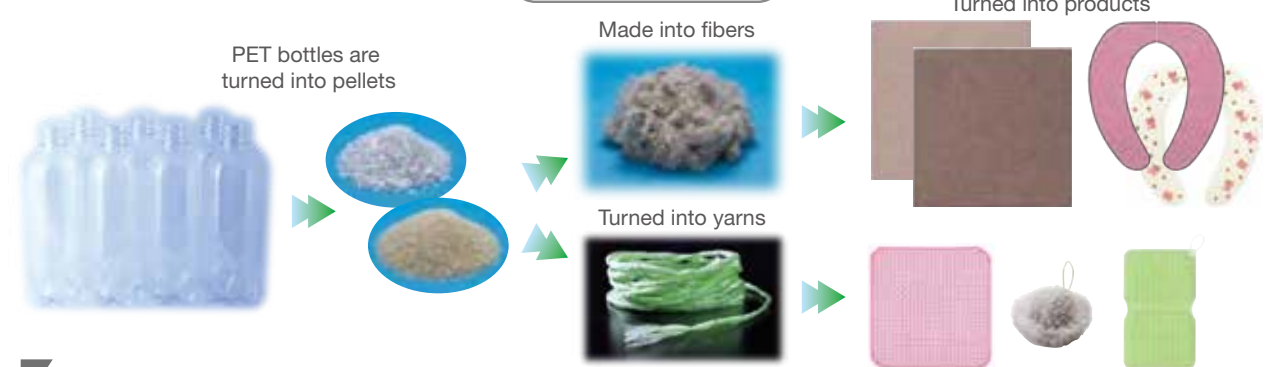

Made of about 4.4 million 500 ml PET bottles (about 110 tons)

Made of recycled materials

(\*Used for production from 2017 to 2022. Calculated based on recycling 25 g of material from a 500 ml PET bottle.) Current ratio of recycled materials used is about 50% (recycled polyester resin).

Production flow

Environmentally friendly

Use of scallop shell waste, Use of FSC-certified products, Reduction in the use of plastics, Using plant oil-based inks with a lower environmental impact. Includes images of a toilet seat, a box, a mushroom, and vegetable oil ink.

Our efforts and activities

Voice cards from our customers

In product development, Sanko always cherishes the voices of our customers. We received a variety of feedback on what our customers felt and noticed when using our products, and so we repeatedly improve our products based on that feedback.

We also participate in various activities.

We have sponsored events at kindergartens and little league baseball matches, traditional townhouse clean-ups in Kyoto, and roundtable discussions with the fan community.

A brand created with our unique technologies

Just Place It and It Stays in Place.

Easy to place and remove! Easy to take care of as well!

Why does it stick?

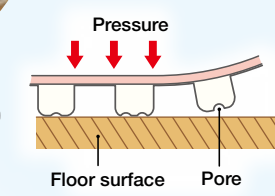

The point

Stays on even during vacuuming

Machine washable!

The mechanism is the same as suction cups. The mat has numerous invisible pores on the back. Pressure applied from above releases air from the pores, creating a vacuum with countless suction cups which adhere to the floor.

A brand created with our unique technologies

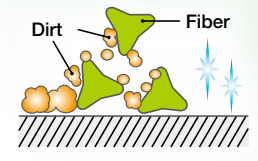

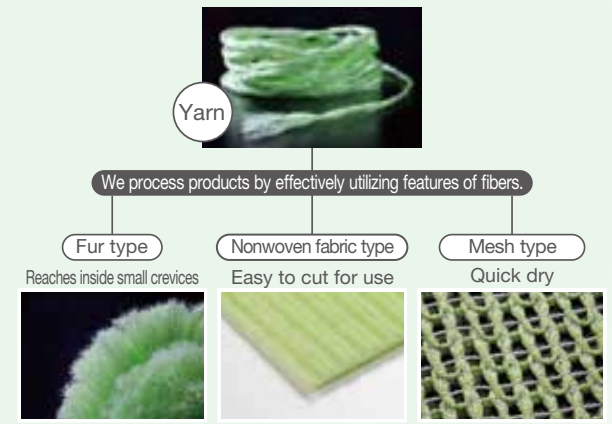

Cleans only with water!

Can also be used on coated surfaces!

How does this clean?

The point

Many ester fibers are strung together to provide moderate rigidity, elasticity, and firmness. Also, the side edges that form a special cross-sectional shape enable cleaning with water alone.

The unevenly shaped padding evenly distributes body weight while sitting.

Toilet seat cover

Thick type

Can be used with the following types of toilet seats.

- Ammonia deodorant treatment
- Machine washable!

Features of POCO / POCO Cushion

The uneven surface on the padding evenly distributes body weight when sitting on the toilet seat. The cushion reduces pressure on the buttocks, keeping them pain free while sitting for a long period of time. The cushion is made of breathable urethane to eliminate any dampness or stickiness.

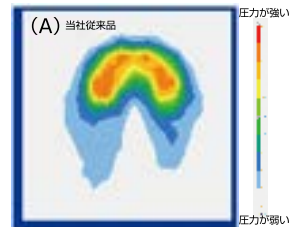

The inclination makes it easier to stand up.

体圧分布のようす

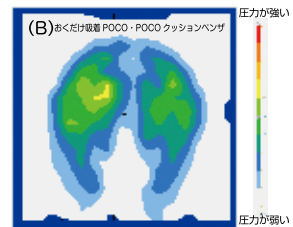

従来からあるタイプのベンザシートとおくだけ吸着 POCO・POCO クッションベンザを比較してみましょう。ベンザシートをつけて座った時の圧力が色で分けられています。赤いところが一番圧力が強く、オレンジ、黄色、黄緑、緑、青の順に圧力が弱くなっていることを表しています。

(A) は、当社の従来品 (スタンダードタイプ) です。

このベンザシートでは、お尻の部分に圧力が集中して (一番体重がかかっています)。このような状態で長時間座ると、「お尻が痛い」と感じやすいのです。

(B) は、おくだけ吸着 POCO・POCO クッションベンザです。

従来品ではお尻の部分に圧力が集中していましたが、POCO・POCO クッションベンザでは、集中している (圧力が強い) 赤い部分がほぼありません。お尻から太ももにかけて、ほぼ均等に圧力がかかっています。(体圧が分散されています) このことから、長時間座っていてもお尻が痛くなりにくいことがわかります。また、太ももにも体重がかかっているため、立ち上がるときの体重移動がしやすいため、立ち上がりやすいと感じることができます。

Place and Stick

The cover stays on even when the seat is lifted.

TOILET SEAT Cover

**Toilet seat cover with slits**

Can be used with the following types of toilet seats.

- Place and Stick
- The cover stays on even when the seat is lifted.
- Ammonia deodorant treatment
- Machine washable!

The slits let you say goodbye to the **cold touch** on the inner diameter of the seat.

The toilet seat cover has slits to **reduce the icy cold touch** on the inner diameter of the toilet seat. With these slits, the seat cover fits nicely to the inner diameter of the toilet seat and keeps your buttocks from touching the ice cold toilet seats.

# How to clean the toilet bowl

## Tips for better and thorough cleaning!

Push the water into the drain hole. The water is drained, and the water level lowers. This allows detergent to stick to the toilet bowl and enables thorough cleaning.

### Toilet Cleaner

Quantity	Color	Item number	JAN code
80	White	BF-97	4973381-228584

#### Amazing Toilet Cleaner

The cleaner part is made of bundles of fibers, making it easy to wash under the toilet bowl rim and deep into the water without creating a splash.
